

# Pitch Deck

AI DOPPEL: FROM ASSISTANT TO AUTONOMOUS YOU.

AIDoppel

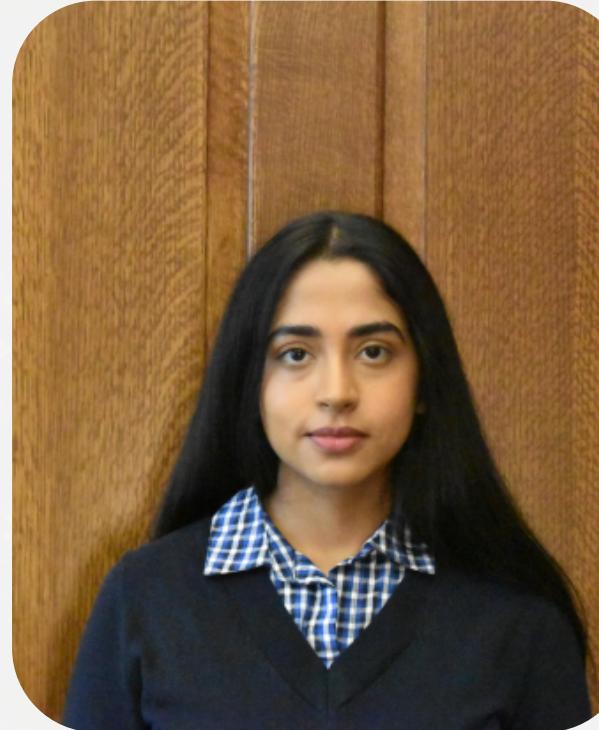

# Team

**Rishikesh Yadav**

Co-Founder

Former Senior AI Engineer at Tapdrop, AI Engineer with 5+ years of experience building scalable Deep Learning models, Agentic AI infrastructure, and advanced Data Analytics tools.

**Pahul Sachdeva**

Co-Founder

Tripled user engagement and boosted ROI by 31% at Newsreel.co using neuroscience-driven design. With a background in cognitive science and tech, I craft intuitive UX and data-led campaigns—driving 60% higher retention and 35% faster onboarding.

# Problem

1

Knowledge workers lose **58%** of their week — over **23 hours** — to meetings, emails, and follow-ups (*Atlassian, 2023*).

2

During fast calls, **70%** of professionals miss key facts or rebuttals, causing lost deals and slower decisions (*Gartner, 2022*).

3

Hiring an assistant, project manager, and comms rep costs **\$150K+** per year, yet professionals still face decision fatigue and time scarcity.

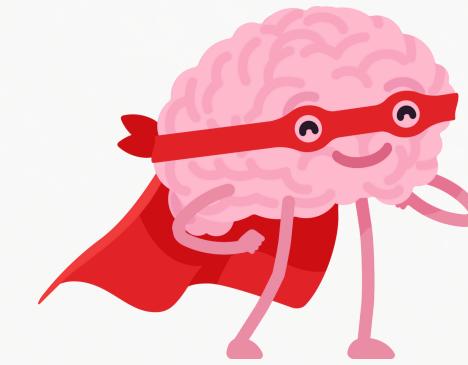

# Solution

AI Doppel joins meetings, speaks for you, and handles follow-ups — freeing 20+ hours/week for strategic work.

AI Doppel TipBox gives real-time tips, facts, and comebacks—powered by Google and your data—making you 10x more prepared to win every conversation.

AI Doppel is an autonomous agent that speaks, writes, and acts like you — delivering the power of 3 hires without extra headcount.

---

# Why Now?

- AI Adoption Is at an All-Time High — But Productivity Gains Are Stalling
- Remote & Hybrid Work Needs a 24/7 Digital Twin
- Foundation Models Are Powerful Enough — It's Time to Go Autonomous

# Key Features

Autonomous  
Meeting Agent

AI Doppel  
TipBox

Autonomous  
Communication  
(Email, DMs,  
Docs)

Calendar & Task  
Management  
with Decision-  
Making

Digital Twin  
Personalizati  
on Engine

Plug-and-Play  
Integrations  
(APIs &  
Extensibility)

# Business Model

Subscription-Based SaaS (B2B + Prosumer)

## Tiered Monthly Plans

- **Solo Plan – \$29/mo**

AI meeting attendance, TipBox, and basic communication support.

- **Pro Plan – \$79/mo**

Adds autonomous task handling, real-time voice replies, and calendar integration.

- **Team Plan – \$149/user/mo**

Collaboration tools, shared AI workflows, and admin controls for startups and teams.

## Add-On Revenue Streams

- Voice Cloning & Personalization Engine – \$20/user/mo
- TipBox Intelligence Packs (Industry-Specific) – \$10–30/mo
- AI Doppel Custom Training (Bring Your Own Data) – Enterprise add-on
- API & Integration Access – For developers and ecosystem partners

## Freemium Onboarding Funnel

- Free users can test passive features (meeting notes, summarization) to drive upgrade.
- Conversion drivers:
  - Unlock autonomous speaking
  - Enable real-time TipBox
  - Connect custom voice & workflows

# Competitive Advantage

Feature	AI Doppel	Sembly AI	Avoma	Otter/Fireflies
<b>Autonomous Meeting Presence &amp; Voice</b>	Fully joins meetings, speaks in your voice, negotiates & represents you	Only passive transcriber & summarizer	Transcription + AI-notes, but no real-time agent voice participation	Just record/transcribe; no speaking or agency in meetings
<b>Real-Time Intelligence (TipBox)</b>	Live tips, facts, comebacks, data-driven prompts during conversations	No live strategy layer; summarization post-meeting only	Provides analytics post-meeting; no live suggestions during meetings	No real-time coaching or intelligent prompts during calls
<b>Digital Twin Personalization Engine</b>	Mirrors your tone, decisions, behavior over time – becomes you	Generic summaries; no personality modeling	Company-level insights; not individualized twin behavior	Standard transcription agent; lacks personalization over time
<b>End-to-End Actionable Workflow</b>	Sends emails, handles DMs, schedules meetings, writes docs semi-autonomously	Extracts action items, but doesn't send messages or act autonomously	Automates notes, CRM updates, follow-ups; still no conversational autonomy in meetings	Supports summaries and search; no multi-tool action execution

# Roadmap

## Phase 1 (3-6 Months)

- Improve and optimize MVP + acquire early adopters

## Phase 3 (6-12 Months)

- Organizational AI Doppel, multi-agent coordination

## Phase 2 (4-8 Months)

- Mass personalization + Seed round + Start monetization

## Phase 4 (8-14 Months)

- Transition from tool to platform
